

James Castrission - IMMERSIVE AV Stage Room Requirements

Overview:

This Immersive program will put the audience in the driver's seat and experience first-hand how to achieve a world first. Using audio visual footage, teams will be involved in a completely interactive experience, with linking audio visuals that will drive teamwork and decision making under pressure.

Additional to all the requirements for the keynote (previous page), Cas requires:

- **Round tables:** seating for between 6-8 per table (unless team sizes have been discussed in briefing)
- Laptop to be connected at **front of room** on small table
- it is critical that the room is set **Cabaret Style.**

Delegate entrance to room

Preference is for all delegates to be out of the room during setup. When doors open, the room is to be as dark as possible with storm sound unnervingly loud. Stage lights off. After first video, spot light on Cas only.

Immersive Requirements:

Digital Projector or large screens

Speaker system (3.5mm or USB)

1 x lapel or headset microphones

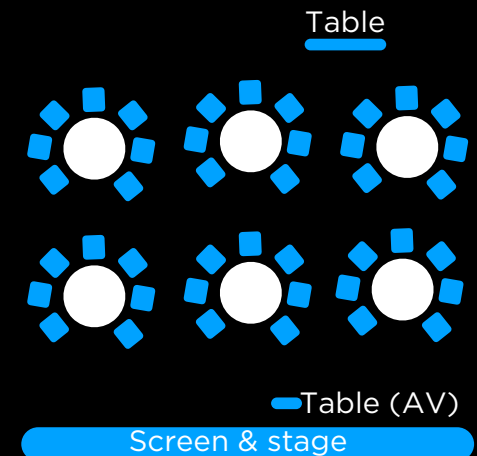

2 x bottles of still water

Notepad and pens for each

Room layout- Cabaret:

Each table:

- Cleared of all items on table (water, table arrangements and notepads OK)
- 1 x scorecard
- 1 x HPT setup

Cas is committed to making your event a memorable & positive experience. He's always available to discuss these requirements with the AV team or events organiser. Cas' phone number: +61 402 904 334
